

HEALTH & SAFETY GENERAL POLICY STATEMENT FORTH STEEL LIMITED

It is the objective of Forth Steel Ltd. that employees and others who may be affected by our activities, be protected, so far as is reasonably practicable, from risks to health and safety arising from work activities.

This will be achieved by adopting a safety management strategy that will include the provision of safe working systems and appropriate procedures to cater for all significant risks.

This policy will be supported by the issue of safety rules and general procedures. These will each be subject to review and revision by management as necessary. The safety organisation and arrangements for implementing this policy will be publicised to all employees.

The responsibility for achieving and adhering to acceptable safety standards rests with everyone including sub-contractors and suppliers of materials which we use at work.

In publishing our policy statement and bringing it to your attention, you have a duty not only to read this document carefully but to take an active interest in achieving safety at work.

Each employee will be given such information and training as is necessary to enable the safe performance of work activities.

The successful implementation of our policy is dependant upon the wholehearted cooperation of all levels of employee and management.

This statement of policy will be reviewed and revised as appropriate, to take account of changes in circumstances or legal requirements.

Signed : Managing Director
